

President's Quips

June 2020

Congratulations to the newly elected board for Bay Point West. It was exciting to see 10 people competing for 4 positions on the board. All too often there are fewer nominated to run than there are positions to fill. It is very encouraging to see so many people willing to volunteer their time and talent to serve on an important board. I am confident they will represent the Bay Point West community well, and that they will be key leaders in the future of our community.

Thanks again to Tracy and those who help organize our concerts in the park. There are 2 planned each month this summer. The first two have been very good. The weather has been ideal. We had a food truck at the last one and plan to continue that for the balance of the summer. Every one is a different group and venue. Come out, enjoy the music and each other's company.

The marina reconstruction will start in the next couple of weeks according to St Joe Company. They will start repairing the walls and then begin some dredging. There are still planned 127 slips in the first phase. Construction will take 8-12 months. It will be great to see boats back in an active marina.

There is lots of activity around planning the new Bay Point. We are using the survey which you submitted to help us in our development plans. We are still pursuing potential acquisition of the golf courses. We are planning the new gate entrance. The Legend's entrance guard house has been painted, a new roof and wall covers are soon to be installed.

We are enforcing the rules that prohibit overnight parking of RV's and trailers in residential driveways. As the election nears, we remind you that political signage in yards is not allowed. In other words let's keep Bay Point looking like it should.

To all the 2020 High School graduates we extend our sincerest congratulations. While it was sad that these young men and women did not get to enjoy a traditional graduation ceremony it was wonderful to see all of the yard signs acknowledging these seniors' accomplishments. Once again congratulations. Now it is time to remove the yard signs and perhaps begin preparing to head off to college or your next big adventure. July 6th, 2020 is the date for removing the graduation yard signs.

Finally, I think that the virus, the effects of the virus, the social unrest, and the disruption of our normal life style has put many of us on edge. It takes very little to upset some folks. The anger and language that have been directed to staff in the office, security and post office has been very vile. **Save that energy for something good! Civility toward each other, no matter the issue, must be observed. We are community, we are better than that.**

Respectfully,

Bill Wanner
BPCA President
